2.5.H.1. In the event of an interruption of Service that exceeds the minimum requirements set forth in this paragraph, the Company shall make a credit allowance at the Customer's request for a pro rata adjustment of all Service charges billed by the Company for Services rendered inoperative by the interruption. Such contract or ICB rates will be filed with the Commission for its approval if required by applicable rules and regulations.

2.7.B. When Applicable

Special Services rates apply in the following circumstances:

- 2.7.B.1 If at the request of the Customer, the Company obtains facilities not normally used by the Company to provide Service to its Customer;

2.9 Special Construction

All rates and charges quoted in this Tariff provide for the furnishing of a Service when suitable facilities are available or where the construction of the necessary facilities does not involve unusual costs. When the revenue to be derived from the Service does not warrant the Company assuming the unusual costs of providing the necessary construction, the Customer may be required to pay all or a portion of such costs and to contract for the service for a sufficient period to warrant the construction, depending upon the circumstances in each case. 3.6.A. Dialed International Message Telecommunications Services are measured use, full time services and are offered on a monthly basis, utilizing international communications facilities. When appropriate access arrangements exist, these switched services are available on a pre-subscription (equal access) basis. Otherwise, the Services require that a Customer access the Company's network via an alternative access code arrangement such as "950-XXXX" plus the Customer's security code, a toll-free "1-800" telephone number with the Customer's security code, or via "1-0-XXX" code with Customer security code.

3.6.B. Depending upon the service option chosen by the Customer, the charges for the use of such international communications facilities may be based upon the time of day, the total minutes of use and/or the distance of each call.
